The Reasons Why.

The gas and electric franchise has been the absorbing topic in North Platte this week, leading by many laps the apparent interest in the question of license or no license.

Because a more modern electric plant is needed, we would all profit by the installation of a gas plant, and the only way we can secure these in the immediate future is to grant a franchise to this or some other company.

Because it is out of the question to consider voting bonds for the construction of a municipal lighting plant until the water plant has been placed firmly on its feet and the required extension of mains made, which extensions will probably call for the voting of bonds.

Because the company asking for the franchise has abundant means to build, and if given a franchise will build, a plant that will give us satisfactory service and at the same time furnish us with a cheaper fuel.

Because the personnel of the company are Nebraska men who have been residents of Omaha for over a quarter of a century, are men of integrity, and in whom we have sufficient confidence to believe that they will always treat us fairly and squarely; we are not of the kind who think every man is dishonest until he has proven himself honest.

Because the investment of \$150,000 in North Platte means the employment of local labor in constructing the plants, will give employment to additional men when the plants are completed and in operation, thus adding to our population and increasing the business of the town.

Because such investment will add to the taxable property of the town and assist in maintaining our schools and city government.

Because the development of the Birdwood water power, which is one of the objects of this company, will give North Platte cheaper power, and may result in securing industries that will employ many people.

Because the franchise does not prohibit the city building a plant at any time, and provides an option to purchase at certain periods.

And lastly because we do not believe the granting of the franchise will injure a single resident of North Platte, but on the other hand will prove a benefit to each and every one.

Men who are Worthy Your Vote.

In the contest over the gas franchise and the wet and dry proposition, the candidates for school board and members of the city council have almost become obscured. It is important, very important, that we have good men for these positions, for they constitute the avenue through which we disburse a good many thousands of dollars annually.

The candidates nominated jointly by the democrats and republicans, are among our most favorably known citizens. E. T. Tramp and Edmund Dickey, the candidate for school board are both old time residents and progressive business men. Both have been members of the board, Mr. Tramp having occupied such position for two or three terms, while Mr. Dickey served part of one term, resigning when he removed to Kearney for a brief residence. They are conservative men and take commendable interest in school affairs, two necessary requisites for members of the board.

The councilmen nominated are well known as substantial, progressive citizens and closely identified with the interests of the city. T. M. Cohagen, the candidate in the First ward, is an old-timer, a hustler, and a man of good business judgment who has always evinced much interest in the city affairs. In the Second ward the candidate is Dr. L. C. Drost, a present member of the council, and one whose vote has always been for the best interests of the city. He takes an active interest in the city affairs and has been a valuable member of the aldermanic body. Harry Porter is the candidate in the Third ward. Practically everybody in the ward knows Harry, and they know he is one of the "live wires" of the town; always "on the job," as the boys say, and interested in everything that will boost North Platte. Over in the Fourth ward the candidate is Leslie Baskins, a North Platte-born boy who recently engaged in the practice of law after a thorough education; a clean cut, active young man who will never feel satisfied until North Platte becomes the "third city" of the state and is willing to do his share to have the town take that rank. With Leslie in the council, the people of the Fourth ward can rest assured that their ward will always get its full share of the things to which it is rightly entitled.

We recommend the above candidates to those who desire good school and city government.
Who Gets Your Money?
The saloonkeepers all have fine buildings—big automobiles, and have money to provide all luxuries of the land. While the fellow that buys their booze is forced to drudge along as best he can while the saloon man is jingling his, the poor man's money, in his pocket, and the poor man is denied the comforts of life.
Mr. Voter, carefully consider this matter. Who is getting your money? The saloon keeper? If he is vote dry and put the temptation out of the way and if he is not vote dry and put it out of the way of the man that needs

your help, by so doing your neighbor the greatest good possible.
It is reported by reliable citizens of Kearney that the brewers have furnished \$1,200, to keep Kearney wet. It is a question how much they have in North Platte for that purpose. If it's more than that let those in position to know speak up.

If our grocer sold goods that would make men sick and vomit all over the sidewalk, how long would you stand it? The saloons do it.

If our bakeries sold goods that would make a man fall in the gutter or out of his wagon, would we stand for it? You know we wouldn't but the saloons do it.

If our confectioners sold goods that made a man so his friends or the police, had to take his money and keep it until he was himself again, would we stand it? No, but the saloons do that very thing.

Adv. Civic League Committee

The Gas Franchise

Behold the electric current coming Down the mighty Birdwood plain, To greet the farmers living there And grow their golden yellow grain.

There's a water plenty and to spare At the head of Birdwood creek, And what we want is men of nerve, Get busy, bring it down here quick.

There's many things we need it for Light, and heat, and power, and such, And then with outside money we Soon can get in healthy touch.

Now this condition will prevail When we become united strong, Now all together let's get right Push that franchise right along.

If we have a power that's cheap Won't cost all that we can make, Manufacturer then will stick, Before they always gave the shake.

If ladies now could only vote (God haste the prayed for time) Then, there'd be no call for this The crudest of crude ryme.

For ladies all know how to cook, Likewise the need of gas, If they had the right of suff, The franchise soon would pass.

We talk about the extreme value, Quarrel among us like the nation, How we ought to save the franchise For the young and rising generation.

So many people think a franchise Is such a valuable thing to keep, Let's sell it now (we've got a chance) Let future generations sleep.

'Tis often said there is two sides To every question asked in faith, With almost every man you talk A franchise seems to be a wraith.

Friends, a franchise does not mean That no one else can make this gas, This company simply wants a chance To do a business that's first-class.

A franchise friends, is simply this The right to plant within your town, Thousands of dollars you can assess With no out-lay, not one cent down.

Now friends, lets all get busy And the franchise quickly pass, For if there's anything we need It's cheap, reliable, cooking gas.

Then 'twould help the farmer so 'Twixt here and Birdwood head, Pump the water, grind the feed, Light the pathway to his bed.

—J. W. LeMaster.
